PALPARLY enough Radical Congress men never intend to enact any measure that will reform the civil service. Radicalism, supreme in both branches of Congress, refuses outright, even to remedy abuses of the franking privilege. The suspicion on the part of the people that Congress really intended to deprive itself of the right to make the public pay the postal expenses of that oody was deemed a good joke by Ber Butler and others long accustomed to Wield power and tritle with the popular will at Washington. The proposition to reform evils incident to the frankin privilege was even greeted with derisiv aughter. It has been seen how committees of investigation are packed how State Conventions, like that or puller county in the Virginia legislature. GREELEY, referring to the apostacy of Governor Palmer to Radicalism, rather to his abandonment of Grant and adhesion to the Reform movement, says that Palmer's example is a good one for those prudent patriots who reognize the necessity and importance of the Reform movement, but decline t commit themselves to it until its future is assured.
